

Meaningful Demonstrative Lesson

On April 9, 2019 there was organized a lesson on the theme "Geodesy and Geoinformatics" for the 107th group of "Hydromelioration" faculty under the guidance of the senior teacher of the department "Geodesy and Geoinformatics" Mukhitdinov Jamolitdin Kamolitdinovich.

The open lesson was devoted to the topic: "Development of Road Traffic Survey." Upon the start of the lesson, the teacher J. Mukhitdinov distributed the handouts on the topic to the students and explained the main part of the new topic. Then, with the help of traditional lectures, the next topic was clarified by the teacher through vital examples and illustrations. Moreover, during the lesson, it is stated: The head of our state, Shavkat Mirziyoyev, said that "Preparing young people for guidance is one of our main goals!".

The demonstrative lesson was attended by dean of the faculty "Hydromelioration" Sardor Gulyamov and employee of the educational-methodical department Sanobar Dustnazarova. At the end, the students answered "BLITS QUESTIONS" on the subject. Observers shared their positive feedback on modern pedagogy and innovative approaches used by the teacher at the end of the course. We are grateful to the teacher who has prepared for this lesson, and we would like to continue to do so in the future.
