

"Ethics" Month among students

At the initiative of Kh. Eshova, Deputy Dean of the Faculty of Land Management for Work with Youth , U. Islamov, the teacher of the Department of Geodesy and Geoinformatics, M. Mukhamedova, the psychologist of the Institute was organized a round table for students in the student dormitory No.1 on the topic "Ethics" and "Socio-psychological dialogue". In their speech, they talked about the formation of a healthy spiritual and socio-psychological environment in the minds of every student studying at an educational institution. It is necessary to educate students who meet the highest moral and ethical standards. Each student has moral and ethical qualities, a sense of responsibility towards society, state and family.
