

Real Uzbek boys!

There is a saying of our people , "A young man should have no less than seventy jobs". Indeed, this proverb conveys very deep meaning . Because the man will be the head and breadwinner of the family tomorrow,. For this reason, on the initiative of Hurriyat Eshova, Deputy Dean of the Faculty of Land Management, pilav-cooking competition was held to test the talents of the guys in the dormitory. The competition was very interesting. This competition has really become an event of promoting nationalism and traditions. The purpose of the competition was to evaluate the way young students prepared a national cuisine, "palovxo'nto'ra", a tradition and their culinary skills. The winners of the competition were given certificates by the deputy dean H. Eshova on behalf of Z.Mukhimova, the dean of the faculty.

Report by Khurriyat Eshova, the deputy dean in the faculty of Land Management
